The Town of Westerly utilizes the CodeRED® Emergency Notification System which allows officials to quickly deliver crucial information to targeted areas or to the entire town. The system automatically dials your published home phone number to advise you of important emergency information that may require immediate action.

No one should assume that their number is already in the system. That's why we're asking all Westerly residents & businesses to sign up for the service. If you've moved, have an unlisted number or changed your phone number recently, you should definitely sign up or update your information. We want to make certain that you receive fast and accurate emergency notifications directly from the officials whose job it is to help protect you and your family. ***HELP US HELP YOU!***
